

**Rhyolite Ridge - GQ-1325 1:62,500**

**Cross section lines**  
 — Line of cross section

**Line Points**  
 † Fault Ball  
 † Inclined fault  
 † Vertical or near vertical fault  
 X Fossil Locality

**Rock Points**  
 — Vertical bedding—Showing strike  
 — Inclined bedding—Showing strike and direction of dip

**Rock Lines**  
 — Contact - Certain  
 - - - Contact - Approximately located  
 - · - · Contact - Approximately located, queried  
 ····· Contact - Concealed  
 — Normal fault - Certain  
 - - - Normal fault - Approximately located  
 ····· Normal fault - Concealed  
 — Fault Scarp, Hachures on downthrown side  
 — Thrust fault - Certain  
 - · - · Thrust fault - Approximately located  
 ····· Thrust fault - Concealed

▶ Plunging Anticline - Certain, Arrow showing direction of plunge  
 † Anticline - Certain  
 - · - · Anticline - Approximately located  
 ····· Anticline - Concealed  
 ▶ Plunging Syncline - Certain, Arrow showing direction of plunge  
 — Syncline - Certain  
 - · - · Syncline - Approximately located  
 ····· Syncline - Concealed  
 — Caldera - Approximate boundary of wall of SILVER PEAK CALDERA  
 — Vein - Certain  
 — Dike - Tbi  
 — Dike 1 - f

**Misc Lines**  
 — Boundary - Located by geophysical methods

**GeoPolys**
