Dear Mr. Schumacher:

As you are aware, the Nevada Division of Minerals recently revised the geothermal regulations to implement a new permitting and fee schedule. These revisions were adopted by the Nevada Commission on Mineral Resources on November 23, 1992, and filed with the Secretary of State on December 16, 1992.

Section 5 of the revised regulations reads as follows:

"On or before January 31 of each year, the owner of the geothermal resource or the operator of a geothermal production well or geothermal injection well shall submit to the department a fee of \$300 for each well which produced or was used to dispose of fluids derived from geothermal resources into an underground reservoir during the preceding calendar year."

In accordance with Section 5, please find enclosed the annual statement for the Dixie Valley Geothermal Plant. Please forward your remittance to the Nevada Division of Minerals, 400 W. King St., Ste. 106, Carson City, Nevada 89710, no later than January 31, 1994.

Should you have any questions regarding the enclosed statements, please feel free to contact either myself or Kathy Loomis at (702) 687-5050.

Sincerely,

A handwritten signature in cursive script that reads "Russ Fields".

Russ Fields
