RUSSELL A. FIELDS
Executive Director

June 26, 1992

Monte C. Morrison
QESI Power Corporation
P.O. Box 1650
Fallon, NV 89407

Dear Monte:

During a recent audit of the Department of Minerals' geothermal regulations, it has become apparent that the industrial class geothermal electric producer's monthly report form, which was revised in July, 1990, does not require the operator to submit all the information required by regulation. The needed information is volume and temperature of fluids produced. We also reviewed the report form for geothermal subsurface injections and determined that it also would benefit from revision.

So that all the required information can be on file at the department, I am requesting that you provide us a completed set of revised production report forms for the period October, 1990, through May, 1992, for the Empire, Stillwater and Soda Lake projects. A supply of the revised production report form is enclosed.

The new injection report forms enclosed are for future reports only. There is no need to provide past information on injection. Please start using both the new production and injection report forms with your next filing.

I regret the inconvenience this causes. If you have any questions regarding the submission of these required reports, please contact Kathy Loomis at 687-5050.

Sincerely,

Russell A. Fields
