RE: Monthly Geothermal Production & Injection Report for September 2003

Dear Linda,

Enclosed is the September 2003 monthly report for the Empire Energy, LLC - Empire geothermal power plant. We are currently surface discharging from injection well 51-16 under NDEP Permit NEV-94003 and we have diverted from all other injection wells to the surface for the 180 day surface discharge of all geothermal water under NDEP permit TNEV-2003319.

The flow rates for 76-16 and the flow rates to the surface discharges for the month of September are estimated due to instrument failure. We believe the newly installed Central Station Control wiring is having signal/communication problems with the flow meters.

Please let me know if we can provide additional information.

Sincerely,

Donna M. Potter
Environmental Coordinator
