RE: Monthly Geothermal Production & Injection Report for October, 2004

Dear Linda,

Enclosed is the October 2004 monthly report for the Empire Energy, LLC - Empire geothermal power plant. We are currently allowed to surface discharge from injection well 51-16 under NDEP Permit NEV-94003.

Injection Well 51-16 was utilized for 4 days this month due to the cold weather, however, fluid was not surface discharged.

The flow rates for 76-16 and injection wells for this month are estimated due to instrument failure. We believe the newly installed Central Station Control wiring is having signal/communication problems with the flow meters.

Please let me know if we can provide additional information.

Sincerely,

Donna M. Potter
Environmental Coordinator
