RE: Monthly Geothermal Production & Injection Report for December, 2005

Dear Linda,

Enclosed is the December 2005 monthly report for the Empire Energy, LLC - Empire geothermal power plant. We are currently allowed to surface discharge from injection well 51-16 under NDEP Permit NEV-94003.

The flow rates for 76-16 and injection wells for this month are estimated due to instrument failure. We believe the newly installed Central Station Control wiring is having signal/communication problems with the flow meters.

Please let me know if we can provide additional information.

Sincerely,

Donna M. Stammers  
Environmental Coordinator

RE: Monthly Geothermal Production & Injection Report for January, 2005

Dear Linda,

Enclosed is the January 2005 monthly report for the Empire Energy, LLC - Empire geothermal power plant. We are currently allowed to surface discharge from injection well 51-16 under NDEP Permit NEV-94003.

Injection Well 51-16 was bypassed and fluid surface discharged for this month due to the cold weather, however, fluid did not reach the outflow channel from the cell, so no water samples were required.

The flow rates for 76-16 and injection wells for this month are estimated due to instrument failure. We believe the newly installed Central Station Control wiring is having signal/communication problems with the flow meters.

Please let me know if we can provide additional information.

Sincerely,

Donna M. Potter  
Environmental Coordinator
