Dear Mr. Fields:

Enclosed are the October 1989 reports for the RMGC geothermal system. The system was started October 27, 1989 and ran the last five days of the month.

As you will note, the production and injection report totals do not match exactly. The difference is 28,600 gallons; this is approximately the amount of water it would take to fill the system.

If you have any questions or need any further information, please contact me at (702) 377-2366, Ext. 248.

Sincerely,

Doug Barto
Environmental Engineer
