Carson City, Nevada 89710

Dear Mr. Fields:

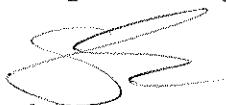

Enclosed please find Geothermal Producers' Monthly Reports for Round Mountain Gold Corporation (RMGC), for the month of December 1994. Also enclosed please find Report of Geothermal Subsurface Injections for December 1994.

These data relate to RMGC seasonal use of geothermal fluid from geothermal lease NVN-46200, to indirectly heat leaching solution.

As identified in the reports, RMGC utilizes 3 production wells: 62-36, 71-36, and 41A-36. In order to re-inject the geothermal fluids to strata of approximate origin, RMGC utilizes 1 re-injection well at this time, 34A-25.

If you should have any questions regarding the reports, please notify.

Mr. Russ Fields, Administrator  
Nevada Division of Minerals  
400 West King St., Ste. 106  
Carson City, Nevada 89710

Dear Mr. Fields:

Enclosed please find Geothermal Producer's Monthly Reports for Round Mountain Gold Corporation (RMGC), for the months of January and February, 1994.

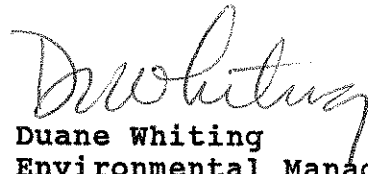

Also enclosed please find Report of Geothermal Subsurface Injections for January and February, 1994.

These data relate to RMGC seasonal use of geothermal fluid from geothermal lease NVN-46200, to indirectly heat leaching solution. As identified in the reports, RMGC utilizes 3 production wells: 62-36, 71-36, and 41A-36. In order to re-inject the geothermal fluids to strata of approximate origin, RMGC utilizes 2 re-injection wells: 34A-25 and 36-25.

If you should have any questions regarding the reports, please give one of us a call at the above number.
