Subject: SUPPLEMENT TO JUNE 1990 PRODUCTION/INJECTION REPORTS

Dear Kathy:

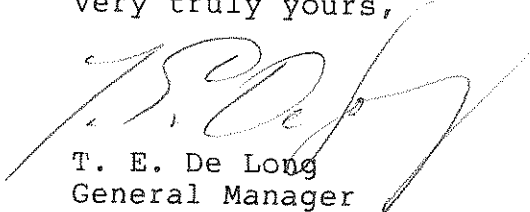

It has been brought to my attention that some of the data on our June report submitted on July 10, 1990 was found to be in error. The brine flow annubar reading was affected by being partially clogged with scale and was taken out of service for inspection.

The corrected flow rates have been calculated via the steam flow rate and test data, that allows us to calculate brine flow from the steam flow rate. The corrected data has been incorporated in the attached new copy of the report report, so that you may dispose of the original if you so desire.

We are in the process of developing a method for determining when the annubar is being affected by scale. This should allow us to pick this problem up sooner in the future.

We trust the above meets with your approval if you have any questions or require additional information please advise.

Very truly yours,

T. E. De Long
General Manager

RUSSELL A. FIELDS
Executive Director

June 26, 1992

Ted DeLong
Yankee Caithness JVLP
P.O. Box 18160
Reno, NV 89511

Dear Ted:

During a recent audit of the Department of Minerals' geothermal regulations, it has become apparent that the industrial class geothermal electric producer's monthly report form, which was revised in July, 1990, does not require the operator to submit all the information required by regulation. The needed information is volume and temperature of fluids produced. We also reviewed the report form for geothermal subsurface injections and determined that it also would benefit from revision.

So that all the required information can be on file at the department, I am requesting that you provide us a completed set of revised production report forms for the period July, 1990, through May, 1992. A supply of the revised production report form is enclosed.

The new injection report forms enclosed are for future reports only. There is no need to provide past information on injection. Please start using both the new production and injection report forms with your next filing.

I regret the inconvenience this causes. If you have any questions regarding the submission of these required reports, please contact Kathy Loomis at 687-5050.

Sincerely,

A handwritten signature in cursive script that reads "Russ Fields".

Russell A. Fields
