Remarks:

The cumulative total for the Trap Spring Field was adjusted by 847 barrels in the January/February, 1990, Nevada Oil Production Report as a result of Makoil, Inc. submitting an Amended Producer's Monthly Report for October, 1989. Please amend the October, 1989, production for the Munson Ranch #14-41 well to show 33,272 bbls produced in 31 days. On the listing provided in the Jan/Feb Report, the production for this well was given as 28,801 bbls produced in 23 days. No amendments are necessary to the cumulative field total as the correct figure has already been calculated into the cum total.

The cumulative field total for the Grant Canyon Field has been increased by 13 bbls as a result of Apache Corporation submitting an Amended Producer's Monthly Report for the Grant Canyon #3 and #4 wells for September, 1989. The Grant Canyon #3 well actually produced 118,808 bbls, rather than the 118,798 bbls as previously reported. The Grant Canyon #4 well actually produced 42,563 bbls, rather than the 42,560 bbls reported.
