17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Due to the sudden drop in oil prices and Marathon Oil Company's economic parameters, Marathon requests approval to place this unit well and lease in suspense as provided under 43 CFR 3103.4-2(f).

If approval is granted, it is understood that a minimum royalty of \$1.00 per acre will be paid on a yearly basis and that the suspension will terminate on May 31, 1987 unless an extension is granted by the Authorized Officer or if the well is returned to production prior to that date.

Presently, Kate Spring #1 is the only well on this lease. The well is shut-in awaiting an increase in oil prices so that justification can be made to perform a water shut-off workover.

In absence of an approved suspension there may be a premature abandonment of the well and resulting loss of recoverable reserves.
