March/April 1986 Oil Production 493,633

Nevada Production (1954 - Present) 15,194,201

The cumulative total for Trap Springs has been reduced by 378 barrels to reflect two corrections to February, 1986, reports: 1) An amended report was submitted by Harper Oil Co. which showed the Trap Spring #1 well producing 19 barrels; and 2) A reporting error was made by Chadco, Inc., which showed the Zuspann 24-1 producing 649. The correct production figure for February for this well was 252. Please amend your January/February, 1986, report to reflect these corrections.

TOTAL: NEVADA PRODUCTION (1954 - PRESENT)

16,531,228

*A typographical error occurred in the April, 1986, report - the Draycutt total should read 3,734, not 3,374. Please add 360 bbls to Draycutt total to May/June & July/August reports to get correct cumulative total. The cum. total has been corrected on this report.

** Chadco, Inc. submitted their August, 1986, report too late to include on the July/August rpt. The Britton 13-21 produced 415 bbls in 13 days. Please amend your July/August report to show this production. This production has been added to the cumulative total on this report.
