PLEASE SEE ATTACHED SHEET FOR SPECIAL NOTES REGARDING THIS REPORT.

- \* Tomera Ranch Field - Foreland-Southern Pacific Land Co. #1-5 well: On the January/February, 1988, Bi-Monthly Production Report, please change February's production figure so that it reads 1,760 bbls instead of 2,173. Correspondingly, the cumulative production figure should then read 2,792. Please make the necessary corrections to your report. The cumulative production figure for this field for March/April, 1988, has been amended to reflect this correction.
- \*\* North Willow Creek Field - Foreland-Southern Pacific Land Company #1-27 well: Please note that no producing days are reported for this well for April, 1988. The 317 bbls reported for April is oil which was produced as a result of well testing and completion.

TOTAL: November/December Oil Production                      548,832

TOTAL: Nevada Production (1954 - Present)                      23,380,513

\* The cumulative total for the Trap Spring Field has been adjusted by 482 barrels. This figure reflects two changes which were submitted to the Department of Minerals on Amended Producer's Monthly Report forms.

1. In December, 1986, Apache Corporation's Trap Spring #2 well produced 4,678 bbls, not 4,683 as reported. The Trap Spring #16 well produced 3,332 bbls, not 3,333 bbls as reported. These amendments reduce Apache's production by 6 bbls.

2. In April, 1988, Apache Corporation's Trap Spring wells produced as follows:

Trap Spring #2	4,259	30
Trap Spring #3	3,122	29
Trap Spring #8	176	30
Trap Spring #9	4,612	29
Trap Spring #16	2,901	27
Trap Spring #19	<u>3,320</u>	30
	18,390	

Apache Corporation's Trap Spring oil production, as previously reported, totalled 17,902 bbls. These amendments increase Apache's production by 488 bbls.

\*\* In April, 1988, Foreland Corporation reported that the Foreland/Southern Pacific #1-27 well produced 317 bbls through swabbing operations as part of the completion process of the well. An Amended Producer's Monthly Report form has been submitted which reports that 438 bbls were actually produced. This amendment increases the North Willow Creek cumulative total by 121 bbls.

If you have any questions regarding these amendments, please feel free to contact this office.
